

I think it is an atrocity that XM radio isn't afforded the same opportunity to inform it's patrons as every other radio station in the US. I rely on XM radio during my travels for up to date information on traffic and weather because of its reliability. As a paying subscriber to to XM radio, I feel that if for no other reason than the fact that I pay for this service, the NAB request is erroneous and unjustified. I respectfully request that the FCC deny this petition (04-160) and And thank you for your consideration.
